

TUTELA TRANSMISSION CVT N.G. Cod. 1478

DESCRIPTION

Synthetic based oil for vehicles with continuously variable automatic gearboxes.

CHARACTERISTICS

- | Fully synthetic formulation, optimal transmission operation in all climatic conditions (from -40°C to +50°C).
- | Special anti-wear additives for more durable mechanical components.
- | High viscosity index in order to guarantee an optimal system lubrication at any operating temperature.
- | Specific anti-slipping characteristics for an improved noise-free exploitation of the transmission.
- | Excellent anti-oxidant characteristics for longer lubricant life.

TUTELA CVT NG exceeds the quality requirements of the major Manufactures of continuously variable transmissions and therefore can be used in cars of every make, type and power with CVT transmissions.

ADVICE ON USE

Replacement should be as indicated by the Manufacturer, however once a year.

RECOMMENDED BY

Fiat Group Automobiles

TECHNICAL DATA

SAE 75W-80
